- 2700 Worker's Compensation**
- 2750 Retiree Health Care Credit**
- 2800 Other Benefits**

NOTE: Fringe Benefits are a significant component of employee compensation and, like salaries and wages, are charged to the appropriate object of expenditure within each program. If possible, fringe benefit costs should be charged to the applicable educational program or activity on an ongoing basis. An alternative is to charge all fringe benefits to various benefit accounts. As part of the year-end closing process, these accounts are closed, and all costs are allocated to the appropriate educational program or activity. The following methods are suggested for allocating such cost at year-end. If these methods do not provide reasonable allocations based on circumstances within the school division, then the school division should use another reasonable allocation method. Consistency in application should be maintained at all times.

Allocation by percentage of payroll dollars:

FICA	Short-term Disability
Pension Plans	Long-term Disability
Life Insurance Plans	Worker's Compensation

Allocation by Head Count:

Hospital Medical Plans	Unemployment Insurance
Dental Plans	

Direct to Program or Activity:

Workman's Compensation (if rate varies by organizational unit)
