

Open the door to **BETTER** reading.

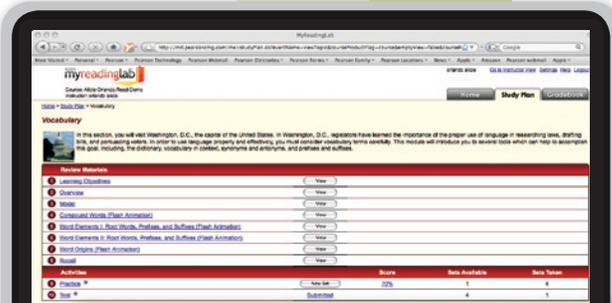

MyReadingLab provides unparalleled online individualized reading instruction, practice, and assessment. Following a diagnostic evaluation of both reading skills and comprehension levels, MyReadingLab prescribes a personalized study plan for every student. The study plan is adjusted after each assessment to ensure students stay on track and supports them with multimedia resources that keep the content relevant, engaging, and accessible.

Personalized study plan that tracks skill mastery.

Thousands of exercises in a variety of formats.

A wide selection of Lexile-level appropriate readings and activities.

Get your FREE teacher preview today!

Go to option #4, select Language Arts, and then select MyReadingLab. Follow the registration prompts and you will receive an e-mail confirmation within 24 hours.

Wherever they are coming from, get them where they need to be.

Four different levels of instructional modules let your students read at their current ability level and progress at an appropriate pace:

- Fundamental (Grade 4–6)
- Basic (Grades 6–9)
- Intermediate (Grades 9–12)
- Advanced (Grades 10–12+)

Give them an individualized path every step of the way.

Based on the results of each student’s pre-diagnostic test, a Study Plan is generated and automatically adjusted after every activity and assessment. The Study Plan is delivered in two dimensions: reading skill and Lexile reading level instruction. Your students can access the learning through:

- Direct instruction
- Animated tutorials
- Illustrated models
- A wealth of exercises
- Multiple assessment opportunities
- Lexile-level appropriate readings and activities

Ensure every student has the basic reading skills they need for college success and beyond.

MyReadingLab was designed specifically to progress your students’ reading skills and comprehension levels to meet the prerequisite needs of college-level coursework and career readiness.

Provide affordable, accessible, and flexible solutions.

MyReadingLab can be integrated into classroom instruction or used at home as an independent, self-directed resource. You can customize the instruction to fit your curriculum, or allow your students to explore and learn on their own.
