

Grade 5 Sample Lesson Plan: Unit 4 – Hygiene and Disease Prevention

SOLs

- 5.1.J Recognize the importance of good hygiene habits.
- 5.2.J Explain the relationship between health promotion and disease prevention.
- 5.2.K Demonstrate dental care, hand washing, and other personal hygiene habits.

Materials

- Materials identified in referenced resources

Procedure

- Hold discussion and conduct activities included in the Kids Health *Germs Teacher's Guide* and show Kids Health video, *How the Immune System Works* <http://kidshealth.org/en/kids/ismovie.html>.
- Implement the 4th and 5th grade module of the VDH *Saving Smiles Curriculum* and/or implement the NIH's *Open Wide and Trek Inside Curriculum*.
- Additional resources to inform or supplement your discussions and activities are included in the references.

Assessment Idea

- Can students demonstrate proper handwashing and tooth brushing techniques?
- Can students explain how good hygiene prevents disease and promotes health?
