Training!

The United States Department of Agriculture (USDA) requires that all local education agencies (LEA) receive a procurement review beginning in school years 2016-17. The goal of the review is to ensure proper procurement of food, supplies, and services in School Nutrition Programs. This workshop provides training on concepts about the procurement of goods, products, and/or services for School Nutrition Programs and support for a successful procurement review. Participants will identify key factors for implementing a fair, open and cost-effective procurement system that supports compliance with federal, state, and local policies. Additional resources will include Farm-to-School procurement strategies and samples for specification writing.

Participants who complete this session will receive 16 units of continuing education that are credentialed by the Commission on Dietetic Registration and the School Nutrition Association. USDA Professional Standard Codes will be listed on Certificate of Completion.
